

Donation Policy

ADMINISTRATIVE POLICY

There are many worthy charitable causes and organizations that need financial support, and Cherry Hills Village encourages all of its residents to give generously to charities of their own choosing. As a municipal entity, however, the Village is obligated to insure that public funds are spent only for the public purposes for which they are collected. Cherry Hills Village will not ordinarily consider requests from charitable or other non-governmental organizations seeking contributions of money. Council may, however, in its discretion consider requests for non-monetary support and endorsements, including participation in joint projects and activities with the Parks, Trails, and Recreation Commission.
