My education includes: B.S. Computer Science and Engineering, MIT and M.S. Media Arts and Sciences, MIT.

My occupation includes: Entrepreneur and owner of a web development company. Denver Business Journal "40 Under 40" in 2011. My contributions to Cherry Hills Village to date are: City Council District 6 (2 years); Quincy Farm Visioning Committee (1 year); Centennial Airport Community Noise Roundtable (1 year); Parks, Trails and Recreation Commission, including Chair (4 years). Outside of Cherry Hills Village, my civic contributions include: MIT Alumni Association Board of Directors (2 years) – recipient of Lobdell Distinguished Service Award and Presidential Citation; MIT Club of Colorado Board of Directors (14 years); MIT Educational Council (15 years) – 7 years as Regional Chair, recipient of George B. Morgan Award; Colorado Ballet Auxiliary (7 years) – many offices including president; Colorado Ballet Board of Trustees (1 year); Junior League of Denver (7 years) – many roles including board member, recipient of President's Cup; Alpha Chi Omega National Council (4 years) and Alpha Chi Omega Foundation Board of Trustees (7 years).

Living in Cherry Hills Village provides the experience of living in a small town – open spaces, rich history, involved citizens – with the access and conveniences of being close to the city.

During the next four years, I will focus on protection of our community character: Our residents repeatedly express that the primary reason for choosing Cherry Hills Village as our home is the pastoral character of the community. A constant priority for the City Council must be the preservation and protection of that character, the city's most valuable asset. Recommitment to the Master Plan: The city's Master Plan sets the agenda for the city. While progress has been made, there is still considerable implementation work to be done. The current plan is also nearing the end of its 10 year term. This Council will have to evaluate the Master Plan and set the priorities for the next 10 years. Regional relationships: Continued growth in the metro region creates pressures on our little sanctuary, everything from increased traffic to demands for natural resources. By having positive representation at the regional level, Cherry Hills Village can have a voice in the decisions that will affect our unique community. Village Center: With the completion of the Joint Public Safety Facility, now attention must turn to the rest of the Village Center campus – public works facilities, administration building, and John Meade Park. Because these plans will have a lasting impact, they must be made based upon critical thinking, accurate information, experience, and citizen input. Parks and open space: Undeveloped land in Cherry Hills Village is vanishing quickly. City Council must focus on the resources and policies to protect our open spaces with due respect for individual property rights.

I am seeking office because Cherry Hills Village has exciting opportunities to protect and enhance our community through the addition of new parks, amenities and open space. As in the past, bringing these possibilities to fruition requires vision, creativity, and leadership from our City Council.

What I value most about Cherry Hills Village is the privilege of being able to live in such a unique community. Within the confines of the Village, you feel like you are in the rural country, with an abundance of trees, open spaces, and friendly faces. Yet, at the same time, we are only a stone's throw and minutes away from a vibrant, multi-cultural city with all the amenities and cultural benefits that provides.

During the next four years, I will focus on: ensuring that CHV maintains its tranquil and pastoral character in the midst of development activities in surrounding communities, and minimizes any negative impact of such development in terms of traffic, safety and security, use of parks and trails, etc. Renewing the commitment to implement the Master Plan to be consistent with the current views of the Community, and in a prudent and cost-effective manner. Ensuring that any plans to expand/renovate/rebuild the Village administration building and public works facility are done with maximum Community input, taking into consideration the short and long term needs of the Village and prudently balancing basic necessities and aesthetics with cost considerations. Ensuring that the Village is able to retain the highly efficient and effective professional staff that is currently responsible for the operation and safety of the Village, and that they have the proper support to carry out their work as they provide the essential services to the Village's residents in a cost-effective manner.

I am seeking office because I believe that part of a life well-lived includes public service. I feel privileged to live in such a beautiful Community, and I would like to continue to give back to this place from which my family and I have derived so very much.
