(2) Officers of the Police Department, or such special officers as are assigned by the Chief of Police, are hereby authorized to direct all traffic by voice, hand or signal in conformance with State traffic laws and this Code, provided that, in the event of fire or emergency or to expedite traffic or protect pedestrians, officers of the Department, and other special officers as are assigned by the Chief of Police, may direct traffic as conditions may require notwithstanding the provisions of the State traffic laws or this Code.

(3) A police officer may issue a written summons and complaint to any person when, based upon personal investigation, the officer has reasonable and probable grounds to believe that the person has committed any offense under the provisions of this Code or pursuant to State law.

(2) Section 106, Article I, of the Model Traffic Code is hereby amended to read in its entirety as follows:

106. Who May Restrict Right to Use Highways.

The use of certain streets, roadways and highways by motor-driven cycles, trucks or other commercial vehicles, bicycles, motorized bicycles, motorcycles, mobile machinery, and horse-drawn vehicles or other non-motorized traffic shall be restricted or prohibited when official signs giving notice thereof are erected thereon.

(3) Subsection 109(9), Article I, of the Model Traffic Code is hereby amended to read as follows:

109. Motorized bicycles, animals, skis, skates, rollerblades, toy vehicles, and all-terrain recreational vehicles on highways.

(9) No person shall use the highways for traveling on skis, toboggans, coasting sleds, skates, skateboards, rollerblades, or similar devices. It is unlawful for any person to use any street, roadway or highway of this municipality as a sled or ski course for the purpose of coasting on sleds, skis, or similar devices. It is also unlawful for any person upon roller skates or rollerblades, or riding in or by means of any coaster, toy vehicle (including, but not limited to, neighborhood electric vehicles, motor scooters, specially constructed vehicles, coasters, toy vehicles, coasting sleds, go-carts, skateboards and gasoline-powered or battery-powered skateboards), or similar device to go upon any street, roadway or highway except while crossing a highway in a crosswalk, and when so crossing such person shall be granted all of the rights and shall be subject to all of the duties applicable to pedestrians. This subsection (9) does not apply to any public way which is set aside by proper authority as a play street and which is adequately roped off or otherwise marked for such purpose.

(4) A new Section 110.5, Article I, is hereby added to the Model Traffic Code to read as follows:

110.5 Red-light cameras.

(1) The City is hereby authorized to use red-light cameras at signalized intersections within the City to detect violations of Section 603 of the Model Traffic Code.

(2) As used in this Section:

(a) "red-light camera" means a device operated by a peace officer that is placed in a fixed location at a signalized intersection and that is programmed to automatically produce a photograph of any vehicle whose driver has violated Section 603 at that intersection: and

(b) "peace officer" means an officer of the Police Department or a contractor designated by the City .

(3) The photograph produced by a red-light camera shall depict the vehicle's location, license plate, and driver. Printed on the photograph shall be the date of the violation, the approximate time of the violation, and the approximate location of the violation.

(4) When a peace officer, based on evidence obtained in whole or part by means of a red-light camera, has probable cause to believe that a vehicle has been driven in violation of Section 603, the peace officer may issue or cause to be issued through a contractor designated by the City, a summons and complaint charging the person in whose name the vehicle is registered with a violation of Section 603. If, however, the vehicle is registered in more than one person's name, the summons and complaint shall be issued to the registrant who the issuing peace officer determines, under all the facts and circumstances, was the person most likely depicted in the photographs produced by the red-light camera. The summons and complaint shall contain the signature, or reasonable facsimile thereof, of the peace officer issuing the summons and complaint.

(5) To obtain personal jurisdiction in the Municipal Court over the charged person, a copy of the summons and complaint must be personally served upon the charged person, or, in lieu of such personal service, by leaving a copy of the summons and complaint at the charged person's usual place of abode with some person over the age of eighteen (18) years residing therein, or by mailing a copy to the charged person's last known address by certified mail, return receipt requested, within ninety (90) days after the alleged violation occurred and not less than five (5) days prior to the time the charged person is required, pursuant to the summons and complaint, to appear in court. The person charged may waive service of the summons and complaint by voluntarily submitting to the Municipal Court's jurisdiction through payment of a fine or other affirmative act constituting a waiver of service.

(6) When a person is served with a summons and complaint under this Section, the person shall:

(a) If admitting the charge, complete the summons and complaint form by providing his or her driver's license number and other information requested in the form, and return the completed form, together with payment of the fine assessed, to the Municipal Court on or before the time specified in the summons and complaint for the charged person to appear; or

(b) If contesting the charge, appear on the date and time specified in the summons and complaint for arraignment.

(7) Proof that a particular vehicle violated Section 603 as detected by a red-light camera and as shown by the photographs produced by the red-light camera, together with proof that the particular vehicle is registered in the charged person's name, shall raise the evidentiary presumption and constitute prima facie evidence of the fact that the charged person was the person driving the vehicle depicted in the photograph. However, such evidence and presumption may be rebutted by the presentation of any probative and competent evidence that the charged person was not the driver shown in the photograph. The City may not require a registered owner of a vehicle to disclose the identity of a driver who was detected by the use of the red-light camera. However, the owner may be required to submit evidence that the owner was not the driver at the time of the alleged violation.

(8) In any proceeding under this Section, any photograph produced by a red-light camera concerning the violation shall be admissible in court as prima facie evidence of a violation of Section 603, provided that the peace officer who activated and tested the red-light camera prior to the photographs being taken testifies as to the placement of the red-light camera and the accuracy of the scene depicted in the photographs, and further testifies that he or she tested the red-light camera for proper operation within a reasonable period of time both before and after the taking of the photographs. Also, to be admissible, the photographs must be of a sufficient quality to permit identification of the driver of the vehicle.

(9) In any proceeding under this Section, the Municipal Court may impose as an additional cost the cost of service of the summons and complaint upon the defendant if such service is effected through either certified mail or personal service. If the defendant is personally served, the Municipal Court may only charge the actual costs of service that shall be no more than the amount usually charged for civil service of process.

(10) The maximum penalty for a violation of Section 603 that is detected by a red-light camera, including surcharge, shall be seventy-five dollars (\$75.00).

(11) The City shall not report to the Department of Revenue: (i) any conviction or entry of judgment or (ii) for purposes of C.R.S. § 42-2-107(5) or 42-2-118(3), any outstanding judgment or warrant based on a violation of Section 603, which was detected exclusively by means of a red-light camera.

(12) The City shall post a sign in a conspicuous place at a reasonable distance before the area in which the red-light camera is to be used notifying the public that a red-light camera is in use immediately ahead.

(13) If a driver fails to pay a penalty imposed for a violation detected using red-light camera, the City shall not attempt to enforce such a penalty by immobilizing the driver's vehicle.

(5) Subsections 203(4)(b)(II) and 203(4)(d), Article I, of the Model Traffic Code are amended to read as follows:

203. Unsafe vehicles – spot inspections.

(4)(b)(II) If the driver submits to the court of competent jurisdiction within thirty days after the issuance of the summons proof that he was not the owner of the car at the time the summons was issued and that he mailed, within five days of issuance thereof, a copy of the notice and summons by certified mail to the owner of the vehicle at the address on the registration, he shall be punished by a fine of five dollars.

(4)(d) The owner may, in lieu of appearance, submit to the court of competent jurisdiction, within thirty days after the issuance of the notice and summons, the certification specified in subsection (3) and the fine of five dollars.

In addition to the red light, flashing, oscillating, or rotating signal lights may be used that emit white or white in combination with red lights. At least one of such signal lamps or combination of signal lamps shall be mounted on the top of the automobile. Said automobiles may be equipped with audible signal systems such as sirens, whistles, or bells. Said lights, together with any signal systems authorized by this subsection (1), may be used only as authorized by subsection (3) of this section or when a member of a fire department is responding to or attending a fire alarm or other emergency or when a member of an ambulance service is responding to an emergency requiring the member's services. Except as authorized in subsection (3) of this section, neither such lights nor such signals shall be used for any other purpose than those set forth in this subsection (1).
